# Introduction

If your life verse, your marching order, is "Come out from them and be separate" (2 Cor. 6:17) then you may want to stop and put this atlas down right now. If, on the other hand Jesus' great commission to "Go into all the world and preach the Good News to everyone" (Mk. 16:15, NKJV) is a command that directs and energizes your steps we believe that this atlas can provide some direction to your feet (or fingertips) as you follow Jesus into this crazy world we live in at the beginning of the 21<sup>st</sup> century.

The [Mobile Ministry Forum](#) began its life seven short years ago and, taking a cue from the opening lines of Charles Dickens' A Tale of Two Cities- these last seven years have been a bit of "the best of times" and "the worst of times". More precisely, these have been times great change and progress in the world and yet, at the same time, times of far too little change or progress.

On the "best of times" side we have seen truly amazing changes happen in the state of connectivity around the world in these past seven years.

- 2.1 billion MORE people now use mobile phones (the portion of the world's population that uses a mobile phone increasing from 53% then to 77% now)<sup>1</sup>
- 1.6 billion MORE people can be reached via the internet (the portion of the world's population accessing the internet rising from 29% then to 47% now)<sup>2</sup>
- 2.2 billion MORE people can connect with believers on social media platforms (the portion of the world's population using social media (the portion of the world's population using social media tripling from 14% seven years ago to 42% today)<sup>3</sup>

On other, "worst of times" side, we have seen very little progress in people from every tongue tribe and nation being given the chance to hear the Good News and coming to faith.

- The percent of all people groups considered "unreached" (a people group where Christians constitute less than 2% of the population) decreased by only 1.5% from 61.4% in 2011 to 59.9% today<sup>4</sup>

<sup>3</sup> <http://www.itu.int/net/itunews/issues/2010/06/35.aspx> and <https://www.slideshare.net/wearesocial/2018-digital-yearbook-86862930>

<sup>4</sup> [http://www.greenbushbaptist.org/uploads/2/9/1/6/2916957/global\\_status\\_of\\_evangelical\\_christianity.pdf](http://www.greenbushbaptist.org/uploads/2/9/1/6/2916957/global_status_of_evangelical_christianity.pdf) and [https://www.imb.org/wp-content/uploads/2016/09/2017-05\\_GSEC\\_Overview.pdf](https://www.imb.org/wp-content/uploads/2016/09/2017-05_GSEC_Overview.pdf)

- The percent of non-Christians who personally know a non-Christian has only increased by 0.4% from 18% in 2010 to 18.4% today<sup>5</sup>. Yes, this means that nearly 82% of unbelievers in the world don't personally know even just one Christ-follower today.

The tribe of Issachar is commended in the Old Testament for being “men who understood the times and knew what Israel should do” (1 Chron. 12:32). The Mobile Ministry Forum believes that the above information and the information found throughout this atlas show us something we need to understand about the times that we are living in and what the Church should do in it. We believe that the digital changes affecting even the most remote unreached peoples is a means God is giving the Church to help remove the bowl that seems to be covering its lamp (Mt. 5:15).

If the digital realm is the world billions of the least reached people are now living in will we be found faithful to go into their digital world in order to seek and save the lost?

It is our hope that this atlas will help you to understand the times and world we and the least reached peoples live in and, from that knowledge, know better what your ministry should do in that world. Companion works sharing more about how you can implement digital ministry include [Mobile Ministry Made Easy](#) (available in several languages) and [Social Media for Missions](#).

# Using the Digital Ministry Atlas

Have you ever planned a big cross-country trip or a trip to a foreign country? Perhaps you get a guide book and break out an atlas to find out your best route for getting there, the places you should check out while you there and possible ways you can connect the dots to ensure you get in everything you want to see and do. We hope that this “atlas” will help you in a similar way as you travel to the digital world in which the people God has put on your heart live.

What’s the best way to get where you’re going? Well there are super highways and then there are backroads. What are the condition of the “roads” where you are going? Is the internet well used? Affordable? Highly monitored/restricted? Are people using the latest greatest phones or ones that have precious little memory and slow processors? You’ll find that info in this atlas. If your particular country isn’t among the 40 we have included check out Appendix A which gives you the online resources from which you can find data on your particular country.

What are the must see destinations? Perhaps they are the top websites, social media platforms and apps that your people are using. Some may appeal to you more than others but it’s always good to check out the sights (sites!) the locals value most and are the most excited about.

As with any trip, though, you’ll find that the big atlas can only help you so much. At some point you’re going to have to pull over and roll down the window to talk with locals. To ask how to get somewhere in particular, where’s the best eatery, etc. That’s why we have Appendix B with some helpful questions that will give you a better sense of what’s happening locally. Be ready to put on your “digital anthropologist” hat at some point and start finding out what your local people’s digital world really consists of.

Whatever you do, though, don’t just be a tourist. There are thousands, make that millions of people living in these places experiencing life’s joys and sorrows without knowing the embrace of Emmanuel, God with us. Romans 10:13-15 tells us that anyone who calls on the name of Jesus will be saved BUT how can they do that unless they hear of Jesus? How can they hear of Jesus unless one of us share His wonderful truth? How can people share that truth with them unless they are sent? You wouldn’t be reading these words unless God already was sending you to the lost and I want to join Him in challenging you be one who will seek out the lost and share His glories with those who may have no other connection with the church than the phone in their hand.

Internet Freedom:

[https://freedomhouse.org/sites/default/files/FOTN\\_2017\\_Final.pdf](https://freedomhouse.org/sites/default/files/FOTN_2017_Final.pdf)

Top Websites:

You can find most of the listings of top 50 websites by country at Alexa's or Similar Web's country listing pages (<http://www.alexa.com/topsites/countries> and <https://www.similarweb.com/country>). That said, there are a number of countries that Similar Web and Alexa have details for but which are not listed on those pages. If you do not see your country of interest listed, use a search engine and do a search for the country name, "websites" and "Similar Web" and/or "Alexa" to find the ranked listing of the top 50 websites being accessed in that country.

Due to differences in results presented by Alexa and Similar Web, it was decided combine the "scores" of websites listed in the top 20 on both sites and then use the top ten scoring sites from that for the top ten websites listing in this document. Scoring was done by reverse scoring the top 20 sites (i.e. give the #1 site a score of 20 and the #20 site a score of 1) on both Alexa and Similar Web and adding the two separate scores for each website together (when listed on both Alexa and Similar Web) to find the highest scoring sites.

Mobile High Speed Internet (Broadband) Access:

# Appendix A

## Data Sources (continued)

### Social Media

- Top Messaging App: <https://www.similarweb.com/blog/mobile-messaging-app-map-2018>
- Top Social Media Site: Follow the same methodology as used in "Top Websites" (previous page) to find the top scoring social media site. Check sites you are unfamiliar with- sites like Weibo and VK are actually very popular social media sites and may beat more widely known sites like Facebook in certain countries.
- Facebook Penetration: Internet World Stats <http://www.internetworldstats.com/> provides relatively up-to-date figures on the number of Facebook users per country. Countries are found in their respective continent listings -
- |                |   |
|----------------|---|

## Appendix B: On-the-Ground Media Assessment

### 1. Ask several people from your target audience the following:

- a) What kind of phone do you have? Why did you get that phone? (particular features, cost, etc.)
- b) What do you do on your phone? (talk, text, browse the internet, play games, social media, view/listen to media, take pictures, etc.)
- c) How much do you get online? How do you get online (do they use their phone, wifi or cellular data, etc.)? Are you able to do it as much as you would like? (if not, ask what keeps them from doing more online) Is there anywhere you can go to get free or low-cost internet access? (is there an internet cafe, public hotspot, do they have to travel to the big city, etc.)
- d) What do you do online- what websites do you like to visit?
- e) Do you listen to music or watch videos online? (try to find out how easy/expensive it is- is the internet too slow? Does it cost too much? What kind of videos do they like and where do they view them?)
- f) How do you get media onto your phone so you can listen/watch it offline? Where do you get it from?
- g) What apps do you use? Which ones do you like and use the most? (if they don't use apps ask what apps other people use).
- h) Do you own a tablet or computer? (if so- What kind? What do they do with it?) Do many people own a tablet or computer?

### 2. Visit two or three local telephone sales stores and ask:

- a) Which phones do you sell the most of? Why?
- b) What are the most important things customers want in a new phone (battery life, price, screen size, memory, etc.)?
- c) Do you have any information for the different phone companies' pre-paid and post-paid phone line rates that I could have?
- d) Do you sell media that people can put on their phones? (if so ask what kind of media is popular. If not, ask how people get media onto their phones)

## Appendix B

# On-the-Ground Media Assessment

(continued)

3. With the information you gain from #1 and #2 fill in the following information:

- a) Share three or more phones that are typically used by people in your target audience and reasons for their popularity (capabilities, price, etc.). If you would like more information about phones' features and their operating system you can find that information [here](#).
- b) On a scale of 1 to 5 (with 1 being not at all and 5 being always) how much do people use their phones to:
  1. Talk
  2. Text
  3. Browse the Web
  4. Use social media
  5. Use apps
  6. Take pictures
  7. Share pictures (receiving and/or sending)
  8. Listen to/watch audiovisual media
  9. Create audio or video recordings?
  10. Share audiovisual media (receiving and/or sending)
  11. Download audio/visual media from the web
- c) Voice Calling
  1. Is the cost of calling a factor in how much they make/receive voice calls?
  2. What other factors do they mention related to making voice calls?
- d) Texting
  1. Is the cost of texting a factor in how much they text?
  2. Is literacy a factor?
  3. Are there any other factors that they mention related to how much they text?

## Appendix B

# On-the-Ground Media Assessment

(continued)

e) Web Usage

1. Is the cost of phone-based browsing a factor to how much they use it?
2. Is access to internet service a factor to how much they use it?
3. Are there any other factors they mention that either enable them to browse the web or prevent them from doing so?
4. What websites are popular/mentioned frequently?
5. Do people listen to/view audiovisual media online using their phones? Download it from the web onto their phones?

f) Social Media Usage

Which social media platforms/chat messaging apps seem to be the most mentioned/used?

g) Apps Usage

Which apps do they mention as their favorites? The ones they use the most?

h) Audio/Visual Media

1. What kind of photos do people tend to enjoy/share? Are there any commonalities in subject matter, stylizing, etc.?
2. How do people obtain the audio/visual media they have on their phones? Are there particular websites, individuals or locations they go to in order to get audio/visual media?
3. How do they share audio/visual media they have on their phone with others? (i.e. show it to others, Bluetooth it to others, transfer via microSD, file sharing app, etc.)
4. Are there any commonalities to the media that they tend to have on their phones/share with others? (i.e. genre, style, content focus, etc.)

i) How common is it for people to own a tablet? Computer?
